Measuring Decent Work in the SDG Global Indicator Framework

Decent work is a prominent item in the SDGs

SDG 8 – Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

But also, **Goal 1** (End poverty), **Goal 4** (Ensure quality education), **Goal 5** (Achieve gender equality), **Goal 10** (Reduce inequality), **Goal 14** (Conserve marine resources), **Goal 16** (Promote justice and Institutions)

→ Cross-cutting topic

→ 30 indicators related to DW. ILO custodian for 14.

What do the SDG decent work indicators allow us to monitor?

SDG labour market indicators provide a wide overview of the labour market situation:

- Labour underutilization (8.5.2)
- Quality of employment: remuneration (8.5.1, 1.1.1), occupational safety and health (8.8.1), productivity (8.2.1) and informality (8.3.1)
- Legal frameworks (8.8.2), social protection (1.3.1), policy priorities (8.b.1)
- Youth situation in the labour market (8.6.1)
- Gender gaps (5.5.2), (8.5.1)
- Work that should be abolished (8.7.1)

Some considerations

The SDG labour market indicators cover many areas of decent work: labour underutilization, quality of employment, legal frameworks, work that should be abolished, gender segregation, youth.

... but they are insufficient, and should be complemented with other indicators

Importance of local context and relevance of indicators at the national level: need to adapt based on country circumstances
